**** Punch nails in or remove
them quick and easy ****

AN OUTSTANDING TOOL FOR:

- *Removing nails from old timber*
- *Punching nails*

Specifications:

Length:	245mm
Height:	230mm
Width:	58mm
Weight:	0.9kg
Air Pressure:	70-100psi

Features:

- *Strong and light-weight die cast body*
- *Trigger lock for safety*
- *Cushion rubber grip*
- *Faster than a claw hammer*

The TYI50NP is a fantastic tool for recycling used timber and crates or just about any application involving the removal or punching of nails. This tool saves time, is easy to use and saves damage to the timber from conventional nail removal.

Ideal for flush nailing or counter sinking nails that fix Linear or wooden weatherboards on house construction.

The TYI50NP will also remove bent nails by sliding the nose of the tool onto the shaft of the nail and bending the nail until it is straight, then firing the tool to punch out the nail.

Removes and punches nails with a diameter from 2mm to 4mm and up to 90mm in length.
