# MAX

## HT-B(NL) Tapener

### Zero waste Tape binding tool

#### Features:

- **Light-weight and easy to use**
- **Spare spring & blade stored in the tape holder**
- **Time saving tool**
- **No 'scrap' - uses less tape**

This tool is ideal for training vines and plants that grow rapidly and need to be kept off the ground. Used by growers of many types of produce such as - grapes, kiwifruit, tomatoes, cucumbers, nursery saplings and many more.

The HT-B(NL) is designed to tie the plants stem or branch to a retaining wire or string using a non adhesive, coloured, bio-degradable tape, which is then fastened with a small staple.

The unique action of the tape binding tool makes it compact and easy to use.

The bio-degradable tape is available in different colours for the colour coding of nursery stocks and identifying different varieties of plants and fruit trees.

The HT-B(NL) tape binder is designed to make the job of tying plants faster and easier.

#### Specifications:

Staple Capacity :	172
Length:	342mm
Height:	158mm
Width:	29mm
Weight:	510g
