# F1BSR5-16

## Air Stapler

*Pneumatic stapler  
for Polymer staples*

### AN OUTSTANDING TOOL FOR:

- *Tagging timber*
- *Wrapping timber packs*
- *Marine applications*

### Specifications:

Length:	218mm
Height:	157mm
Width:	42mm
Weight:	0.78kg
Magazine capacity:	70 staples
Air Pressure:	60-100psi

### Features:

- Eliminates damage to bits, cutter blades & belts
- Eliminates wood discolouration
- Added holding power

Just what the timber industry has been asking for, a tacker that uses polymer staples to label both logs and sticks of timber

The F1BSR5-16 pneumatic tacker, using polymer S/05-37 10mm and S/05-55 14mm staples, are designed to eliminate damage to bits, blades, cutters and sanding belts when the timber is being processed by the industry.

Polymer staples have the added advantage that they will not rust, bleed or stain timber. They can be used in virtually any environmental conditions without adverse effect—they won't shatter, melt or fall apart.

Staples feature a full 13mm crown which gives good holding power to labels or wrapping being fastened to timber.

The F1BSR5-16 air tacker features a convenient bottom loading magazine with easy release and is light-weight for better maneuverability.

### F1BSR5-16 drives the following polymer staples:

Staple code	Box quantity	Length
S/05-37	5040	10mm
S/05-55	5040	14mm
