

EVERWIN®

NEW!

MCN40 Positive Placement Nailer

Powerful, light weight, metal
connector nailer

Features:

- Magnesium alloy body, strong and light weight.
- Positive placement safety trip allows nails to be positioned accurately.
- Moulded rubber comfort grip.
- In-line back loading magazine or excellent balance.
- Hand adjustable (tool free) exhaust deflector.
- Belt clip for convenient carrying of tool.

The new MCN40 is a light and powerful positive placement nailer for the construction industry. The alloy body is designed to be lightweight, yet highly durable.

The MCN40 features a patented sequential safety trip which exposes nail tip for placing fastener point directly into metal connector hole for precise and fast nailing.

The tool offers a rear loading, in-line magazine, making it easy to load whether the user is on the ground or 30 feet up in the air. Tool also has a 360 degree, hand adjustable exhaust, "no tools required".

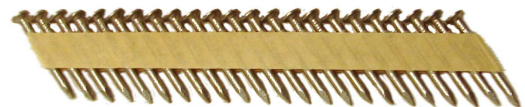

The convenient belt clip means the tool is always on hand even when metres off the ground.

AN OUTSTANDING TOOL FOR:

- Joist Hangers
- Metal connectors
- Metal strapping
- Metal bracing straps

Specifications:

Length:	297mm
Height:	289mm
Width:	90mm
Weight:	2.1kg
Air pressure:	80-120 psi
Nail size range:	38mm
Nail capacity:	25 nails per load

MCN40 drives the following nails:

Product Code		Length
Galvanised Smooth	Stainless Smooth	
MCN3831G	MCN3831SS	38mm
