Features:

- Magnesium ultra weight body
- Dial-A-Depth™ for quick counter-sinking adjustments
- Oil-free design
- Built in blower to remove debris
- No-Mar Smart Point® safety tip

Designed for long service, the BTFP72155 pneumatic brad nailer combines light weight and good balance for best manoeuvrability and ease of operation by use of magnesium alloy components.

This tool has plenty of power for hardwood floor installation, hardwood furniture & cabinet building. Sequential trip operation ensures precise brad placement, thanks to Smart Point® technology.

Angled magazine features fast-loading of brads by the stick and a special non-marring Smart Point® foot that prevents scratches in finished or soft wood. Brads are always visible from the side so operator knows when to reload. Changing brad sizes is simple and fast, requiring no tool adjustment.

BTFP72155 drives 16 gauge brads

Code		Length
Galvanised Steel	Stainless Steel	
DA13		25mm
DA15		32mm
