NEW!

State of the Art Pneumatic stapler

Features:

- *Compact and manoeuvrable*
- *Quick bottom loading magazine*
- *Strong and light weight die cast body*
- *Cushion rubber grip*

Designed for use in the bedding and packaging industries in many different applications.

This tool is ideally suited for jobs that require a clinched staple such as: securing felt over edge wires and springs of mattresses, assembly of box and lid type boxes, box files and sealing paper board containers.

The R1B88-25PLIER has a bottom loading magazine which holds upwards of 200 staples per load. Its small nose allows for accurate placement of staples.

R1B88-25PLIER drives: 88 series staples
