

SIFCO®

ULTIMA 60P **Tradesman Petrol** **Air Compressor**

NEW!
The Next Generation of high performance compressors from SIFCO

- * *Maximise production*
- * *Minimise operator fatigue*

Specifications:

Length:	980mm
Height:	790mm
Width:	430mm
Weight:	65kg
Max pressure:	145psi (10bar)
Air displacement	476L/min (16.8cfm)
Free air delivery	368L/min (13cfm)
Petrol motor	6.0hp/1300rpm OHV Recoil Start
Air tank capacity:	60 Litres

Features:

- *Take it anywhere — no electricity required*
- *High working air pressure*
- *Auto idle / fast recovery*
- *Filter/regulator ensures a clean dry air supply*
- *Inflatable large wheels*
- *Front stabilisers with rubber feet*
- *Automatic idle control*
- *60 litre air tank capacity*

Designed for the demands of the construction site where no electricity is available, the ULTIMA 60P compressor combines portability with tradesman quality. The use of a petrol motor and belt-driven V twin pump ensures a constant source of compressed air at a working pressure of 110psi with a maximum pressure of 145psi (10bar).

The ULTIMA 60P compressor incorporates a 10mm filter/regulator and 10mm heavy duty quick release coupler. The filter/regulator automatically removes moisture from the airline and allows you to regulate the pressure to suit your job requirements.

Extra large inflatable wheels provide greater access to some sites and when moving around the job site. The new front stabilisers mean better support from two rubber feet. The 60 litre tank provides greater air storage meaning the pump works less often.
