- Securing building wrap
- Fine wire netting
- Wrap to steel framing
- Insulation to steel framing

N66BC-2 drives plastic sheet coil nails

Galvanised	Box Quantity	Length
KBP38V5GAL	4000	38mm
KBP65V5GAL	4000	65mm
FKBP65V5GAL	4000	65mm
PC-B-25N WHITE Caps	2500	

State of the Art

Features:

- *Lightweight magnesium body*
- *Adjustable depth control for counter-sinking adjustments.*
- *Quick loading coil nailer*
- *Rubber grip & belt hook/hanger*
- *Adjustable exhaust*
- *Rugged long life design*

Designed for holding building wrap to house frames, and packaging to wood products.

The N66BC-2 has a easy side loading magazine which holds 200 plastic sheet coil nails. The nail and cap supply can be viewed from the side so the user can easily determine the remaining fasteners.

Ideal for fixing insulation or building wraps to wooden or steel frame houses
