State of the Art Brad Nailer

Features:

- *Sliding nose safety mechanism with rubber tip*
- *Adjustable depth control for quick counter-sinking adjustments*
- *Easy back loading*
- *Light-weight body with rubber grip*
- *Tool-free adjustable deflector conveniently directs exhaust*

Designed for long service, the PR1650A pneumatic brad nailer combines light weight and good balance for best manoeuvrability and ease of operation by use of contoured alloy components.

This tool has plenty of power for MDF and solid wood furniture & cabinet assembly. The small sliding nose trip ensures precise brad placement.

Angled magazine features fast-loading of brads by the stick and a special non-marring foot that prevents scratches to finished or soft wood. Changing brad sizes is simple and fast, (*Nailer will not fire when low on brads*) requiring no tool adjustment.

PR1650A drives 16 Ga Galvanised brads
