## R1B80-25 PLIER <sup>NEW!</sup> State of the Art Pneumatic Stapler

### Features:

- Compact and manoeuvrable
- Quick bottom loading magazine
- Strong and light weight die cast body
- Cushion rubber grip

Designed for use in the bedding and packaging industries in many different applications.

This tool is ideally suited for jobs that require a clinched staple such as: securing felt over edge wires and springs of mattresses, assembly of box and lid type boxes, box files and sealing paper board containers.

The R1B80-25PLIER has a bottom loading magazine which holds upwards of 200 staples per load. Its small nose allows for accurate placement of staples.

### AN OUTSTANDING TOOL FOR:

- Bed mattress felt stapling
- Cardboard box and lid assembly
- Cardboard cylinder sealing

### Specifications:

Length:	370mm
Height:	330mm
Width:	75mm
Weight:	2.25kg
Magazine capacity:	200 staples
Air Pressure:	60-100psi

R1B80-25PLIER drives: 80 series staples
