DSA3519N

Wide Crown Cordless Carton Stapler

Features:

- Cordless design for versatility.
- Seals filled cartons entirely from the outside.
- Adjustable depth control.
- Easy rear loading.
- 2 x 12volt 2.0Ah Li-ion battery & charger
- DC Brushless motor technology.

This precision-built tool is designed for fast fastening flaps of corrugated cartons, working entirely from the outside. It uses 34.5mm wide crown pre-formed staples in either liquor or galvanised finish.

The DSA3519N has a cast aluminium workface and ABS body with comfortable grip, heavy gauge steel magazine with spring-loaded staple pusher. Wearing surfaces are hardened for smooth operation and long life.

AN OUTSTANDING TOOL FOR:

- All purpose packaging
- Carton sealing
- Cordless box closing

Actual Size

Maximum penetration with top/bottom staplers

Easily adjustable for blind clinching

Specifications:

Length:	343mm
Height:	210mm
Width:	114mm
Weight:	2.81Kg
Staple capacity:	108 staples per load

Ideal for packaging applications where the stapler must be taken to the work. A few wide-crown staples driven across the seam of a regular slotted carton provides a time and cost saving method of carton closure.

A simple adjustment controls penetration of clinchers and tightness of the clinch. This ensures a properly clinched staple with the correct amount of compression of the board.
