

SIFCO®

Titan 26R

Tradesman Portable Air Compressor

The next Generation of high performance portable compressors

NEW!

- * *Maximise production*
- * *Minimise operator fatigue*

Features:

- *Light-weight and manoeuvrable.*
- *High working air pressure.*
- *Fast recovery.*
- *Filter/regulator ensures a clean dry air supply.*
- *Durable wheels & twin front feet for stability.*
- *Auto thermal cut-out for motor protection.*

Specifications:

Length:	590mm
Height:	610mm
Width:	290mm
Weight:	30.5kg
Max pressure:	145psi (10bar)
Air displacement:	246L/min
Free Air Delivery:	170L/min (FAD)
Motor:	2.5hp/2850rpm
Noise Level:	81dB
Tank Capacity:	25 Litres

Designed for the demands of the construction site, the TITAN 26R compressor combines light-weight portability with tradesman quality. The use of direct drive motor considerably increases the efficiency of the pump. By incorporating a special valve a higher working air pressure (145psi) is obtained compared with standard direct drive models.

The TITAN 26R compressor incorporates a large filter/regulator and 10mm heavy duty quick release coupler. The filter/regulator automatically removes moisture from the air line and allows the operator to regulate the pressure to suit the job.

New larger wheels provide stability when moving around the job site and the twin front stabilisers have rubber feet to reduce vibration.
