

*The Next Generation of high
performance oil-less compressors*

NEW!

- * *Maximise production*
- * *Minimise workplace noise*

Features:

- *Well balanced & manoeuvrable.*
- *High working air pressure.*
- *Fast recovery.*
- *Oil-less silent air twin pump.*
- *Large wheels & front stabiliser with pull out "trolley" handle.*

Designed for the demands of the construction site, the HUSHPRO 20 compressor combines light-weight portability with tradesman quality. The use of direct drive motor considerably increases the efficiency of the oil-less silent air twin pumps. By incorporating a special valve, a higher working air pressure (175psi) is obtained compared with standard direct drive models.

The HUSHPRO 20 compressor incorporates a regulator and 2 x 10mm heavy duty quick release couplers. The regulator allows you to regulate the pressure to suit your job requirements.

Large wheels provide greater stability when moving around the job site, using the extended trolley handle. The new front stabilisers mean better support from two rubber feet. The twin silent air pumps make for a quieter workplace.

Specifications:

Length:	620mm
Height:	360mm
Width:	520mm
Weight:	35kg
Max pressure:	175psi (12bar)
Air displacement	200L/min
Motor	1.5hp/1450rpm
Tank Capacity:	15 Litres
Free Air Delivery:	84L/min (FAD)
Noise Level:	63dB
