

SIFCO®

NEW!

AF13021

Round Head Framing Nailer

Powerful Heavy-Duty construction nailer

Features:

- *Light weight magnesium body*
- *Designed for long service*
- *Rubber comfort grip*
- *Detachable side hand grip*
- *Depth control adjustment*
- *Drives full round head nails*

The new AF13021 is a powerful stick nailer for the construction industry.

The AF13021 features an adjustable depth control for quick and easy depth adjustments, ideal for switching from general decking to bridge building.

The AF13021 is a well balanced tool that is powerful with a small round nose that allows the nailer to get into tight spots for skewed nailing.

This tool offers easy back loading of plastic strip collated nails from 88mm up to 130mm.

AN OUTSTANDING TOOL FOR:

- *Decking*
- *Jetty Building*
- *Bridge Construction*

Specifications:

Length:	536mm
