## TBS Tapener

### Specifications:

Length:	356mm
Height:	158mm
Width:	30mm
Weight:	480g

## Zero waste Tape binding tool

### Features:

- *Light-weight and easy to use*
- *Spare spring & blade stored in the tape holder*
- *Time saving tool*
- *No 'scrap' - uses less tape*

This tool is ideal for training vines and plants that grow rapidly and need to be kept off the ground. Used by growers of many types of produce such as: grapes, kiwi fruit, tomatoes, cucumbers, nursery saplings and many more.

The TBS is designed to tie the plants stem or branch to a retaining wire or string using a non adhesive coloured bio-degradable tape and fastening with a small staple

The unique action of the tape binding tool makes it compact and easy to use.

The bio-degradable tape is available in different colours for the colour coding of nursery stocks and identifying different varieties of plants and fruit trees.

The TBS tape binder is designed to make the job of tying plants faster and easier.
