

# B17.64 Air Brad Nailer

*State of the art Pneumatic nailer*

- Compact design
- Sequential safety
- Easy back loading magazine
- Strong and light weight die cast body
- Comfortable rubber grip

Designed for use in joiner, furniture & construction industries in many different applications. The sequential safety mechanism enables accurate driving of fasteners on detailed work.

The B17.64 has a back loading magazine which holds upwards of 100 brads. Its narrow nose allows for accurate placement of brads.

- Furniture and cabinets assembly
- Door and window casing
- Exterior house cladding
- Boat building
